Profile

Frontend Developer with hands-on experience building responsive web applications using React.js, JavaScript, HTML, and CSS. Familiar with component-based architecture, React Hooks, React Router, API integration, and state management concepts. Passionate about creating user-friendly interfaces and continuously learning modern web development technologies. Seeking a React.js Internship opportunity to apply and expand frontend development skills.

Projects

To-Do List Application

- **Technologies:** JavaScript, HTML, CSS
- Developed a task management application for creating, updating, and deleting tasks.
- Implemented dynamic DOM manipulation using JavaScript.
- Designed a responsive and user-friendly interface.
- Improved understanding of event handling and application state management.

E-Commerce Website

- **Technologies:** JavaScript, HTML, CSS
- Built a responsive e-commerce interface with product listings and shopping cart functionality.
- Implemented interactive UI features using JavaScript.
- Applied modern CSS techniques including Flexbox and responsive layouts.
- Organized code for maintainability and scalability.

React.js Projects (In Progress)

- **Technologies:** React.js, JavaScript
- Learning and implementing React fundamentals including components, props, state, and hooks.
- Building reusable UI components following modern frontend development practices.
- Exploring React Router and API integration.

Education

MERN STACK | FEB 2026 | GEN CORPUS DATA HUB CALICUT
