SUMMARY

MERN Stack Developer with hands-on experience building full-stack web applications using **MongoDB, Express.js, React.js, Node.js, JavaScript, Next.js, HTML5, CSS3, and Tailwind CSS**. Skilled in developing RESTful APIs, implementing CRUD operations, integrating databases, and designing responsive, user-friendly interfaces. Familiar with Git, GitHub, API integration, and deploying applications using **Vercel**. Passionate about building scalable web applications, writing clean, maintainable code, and continuously learning modern web development technologies.

EXPERIENCE

	Feb '12 — Present
MERN Stack Developer Training	kozhikode, India
Gen Corpus Data Hub, Kozhikode	
Developed full-stack web applications using MERN stack	
Built RESTful APIs with CRUD functionality	
Designed responsive frontend using React.js	
Managed MongoDB database operations	
Deployed applications using Render & Vercel	
Used Git for version control and teamwork	

EDUCATION

MERN Stack Training - Gen Corpus Data Hub	Feb '12 — Present kozhikode, India
Bachelor of Technology – Information Technology - MACET , Anna University	Oct '2021 — May '2025 Kanniyakumari, India

SKILLS

Frontend Skills: HTML5, CSS3, JavaScript, React, Next, Frontend Deployment

Database: MYSQL, MonogoDB

Backend Skills: JavaScript (Node.js), Express.js, Backend Deployment

Tools: Git, Github, Vercel, Render, Postman

Soft Skills: Problem Solving, Logical Thinking, Time Management, Attention to Detail

Languages:English, Hindi, Tamil, Malayalam

PROJECTS

React E-commerce Website

- Developed a responsive e-commerce web application using **React.js, JavaScript, and Tailwind CSS**, implementing product search, category filtering, shopping cart functionality, and dynamic product listing through **REST API** integration.
- Utilized **React Query, Axios, React Router, and React Hooks** to manage API requests, routing, and application state while enhancing the user experience with **Framer Motion** animations.

Dynamic Form Builder

- Developed a dynamic form builder using **React.js**, **Redux Toolkit**, **Tailwind CSS**, and **@dnd-kit**, enabling users to create, customize, and organize forms with drag-and-drop functionality and reusable components.
- Implemented centralized state management, dynamic form rendering, responsive layouts, and an intuitive user interface to improve performance, scalability, and user experience.

Developer Portfolio Website

- Designed and developed a fully responsive personal portfolio using **React.js** and **Tailwind CSS** to showcase projects, technical skills, and professional experience with a clean, component-based architecture.
- Implemented interactive animations using **Framer Motion**, optimized **SEO**, and ensured seamless performance across desktop, tablet, and mobile devices.

Admin Dashboard

- Built a responsive admin dashboard using **React.js** and **Tailwind CSS**, featuring reusable UI components, sidebar navigation, dashboard cards, tables, and mobile-friendly layouts.
- Managed component state with **React Hooks** and followed modern frontend development practices to create a scalable, maintainable, and user-friendly application.
